RE: NAB Petition 04-160

One of the primary reasons that I purchased XM was to enjoy the wide variety of music not often (if at all) heard on commercial terrestrial radio. Don't allow the NAB/"Big Radio" to hamstring satellite radio like it did to LPFM broadcasters. If the NAB can't compete, it should rethink how it does business and not use the US Congress/FCC to do its "dirty" and underhanded deeds.
